

# USP™ ROOFING GRANULES

## Technical Data Sheet

**Product Name:** USP™ ROOFING GRANULES

**Classification:** Roofing Granules

**Product Description:** USP™ Roofing Granules are made from 3M™ Classic Roofing Granules and are designed to match the granule surfacing of U.S. Ply membranes such as DuraFlex™, DuraWeld™, SafeWeld™, and USP 160™. USP Roofing Granules are a unique, natural mineral product, the only type of roofing granule that meets the toughest test of time, weather and the marketplace.

Our granules are dense and non-porous, resist ultra-violet light and are tough enough to stand up under handling. And they hold the long-lasting ceramic coatings added to create the ever-growing selection of colors demanded by the roofing market.

**Product Data:** USP™ Roofing Granules (specify color)  
Weight: 45 lbs/5 gal (20.4 kg/19 L)

**Colors Available:** Standard colors are white, black, tan, cedar blend and weathered wood. Also available in dark brown and gray upon special order.

All values given are approximate and are subject to change without notice. There is no implied or express warranty given through these values or statements, nor are there any assertions that the product purchased has been individually tested to conform to these standards. Testing is performed on a random basis by "in-house" and independent "third party" evaluation for the purpose of classification and or approval. Acceptance, purchase and selection of these products are the sole responsibility of the buyer or buyer's representative.
