

# CR-20 LOW SLOPE COMMERCIAL ROOFING ADHESIVE

Polyset CR-20 has been newly designed as a 2-in-1 application product that outperforms existing products by minimizing SKUs and combining application methods for adhering insulation boards, cover boards and fleece back membranes.

**LOW GWP** (global warming potential) blowing agent formula to meet compliance standards throughout North America.

**NEW 2-IN-1 APPLICATION**, specifically formulated to combine the existing Board-Max and CR-20 products into one, simplified product offering.

**FAST & RELIABLE SPATTER AND BEAD** application methods designed to adhere insulation boards, cover boards and fleece back membranes.

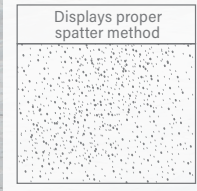

**ADHERES IN LOWER TEMPERATURES**, as low as 30°F (-1°C) and rising.

**INCREASED YIELD** in both bead (~15%) and spatter (~50%) applications.

**VARIOUS SIZE OFFERINGS** from portable, disposable kits to higher-yield 17-gallon refillable systems.

**APPROVALS:** FM and FBC Product Approval.

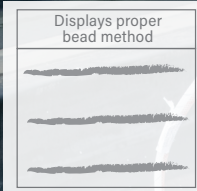

*Please contact your Sales Representative for updated Approvals.*

Displays proper spatter method

### SPATTER PATTERN METHOD

To achieve optimum results, spray pattern should be similar to the action required when hand watering a flower bed. This allows us to create a fully adhered membrane attachment.

Displays proper bead method

### BEAD METHOD

When one adhesive product is desired, CR-20 can additionally be used to adhere insulation and cover boards in a bead pattern method.

The patented Handi-Gun dispensing provides speed and simplicity to the application of CR-20.

Nozzle changes from clear to blue, indicating the chemical has reached a cold temperature, below 60°F (18°C), and the adhesive should not be dispensed until chemical is back to recommended temperatures.

*\*See TDS for product specific temperature recommendations.*

## PROVEN FORMULA

"The new Polyset 2-in-1 formulation dries faster and is stronger."

**Roofing Contractor**  
Cleveland, Ohio

## ADDITIONAL INFORMATION

### CR-20 TECHNICAL DATA\*

OPEN TIME	1 - 10 minutes**
SET-UP TIME	10 - 30 minutes**
FULLY CURED TIME	24 hours
SHELF LIFE	Disposable - 18 months Refill - 6 months

\*See product specific TDS for additional information.

\*\*Times may be affected by temperature and weather conditions.

### APPROVALS/STANDARDS/CLASSIFICATIONS\*

FM - Factory Mutual  
FBC - Florida Product Approval

## ALWAYS DELIVER BEST IN-CLASS TRAINING & FIELD SUPPORT

### COMPANY

25 YEARS of product credibility in the market of roof adhesives.

**PROFESSIONAL FOCUS** only. Polyset is not sold through retail channels.

**THOUSANDS OF SQUARES** of roofing adhesive applied with Polyset products.

### TRAINING & SUPPORT

**ON THE ROOF & CLASSROOM** product applicator training by highly trained professional roofing adhesive technicians.

**MASTERWORKS APPLICATOR TRAINING** provides continuous hands-on training, ensuring projects meet code compliance, while delivering The Polyset Promise.

### SERVICES

**TRUE TESTING VALUES & DATA** for uplift and fire ratings, through accredited laboratories.

**NO CHARGE** adhesion/pull testing for our customers.

**REFILLABLE CYLINDER PROGRAM** provides routine pick-up of empty cylinders. No cylinder waste in landfills.

**REFILLABLE CYLINDER DEPOSIT** program prevents any "hidden fees" to our customers.
